

Hanny Rivera, PhD

Associate Director, Business Development for Energy and Sustainability
Ginkgo Bioworks

Session: Healthcare

Title of Talk: Unlocking the power of synthetic biology for human and planetary health

Bio: Dr. Hanny Rivera is an Associate Director of Business Development for Energy and Sustainability at Ginkgo Bioworks, the world's leading synthetic biology platform company. She holds a B.A. in Evolutionary Biology from Harvard University, and a Ph.D. in Biological Oceanography from MIT. She is passionate about using biology to build a more sustainable future. Prior to joining Ginkgo she was an AAAS Science and Technology Policy Fellow in the Water Power Technologies Office at the U.S. Department of Energy.
