

CUNY Neuroscience Collaborative Seminar Series

Fall 2025

The Graduate Center
365 5th Avenue (5th Avenue & 34th St.)

FRIDAYS @ CUNY GRADUATE CENTER, ROOM 6496
ZOOM MEETING ID: 872 8393 4995 PASSWORD: 440840

SCHEDULE OF EVENTS

10/10	David M. Schneider, PhD <i>Associate Professor, Neural Science New York University</i> Using errors to guide behavior.
10/17	Alzahraa Amer, PT, PhD <i>Postdoctoral Research Fellow Northwestern University</i> An Optogenetics approach for recovery of skilled motor function following cervical SCI.
10/31	Susana Mingote, PhD <i>Associate Professor, Biology, Neuroscience, Cognitive Neuroscience Advanced Science Research Center</i> Selective Vulnerability of Dopamine-Glutamate Neurons in Aging and Its Impact on Memory.
11/7	Sabina Hrabetova, MD, PhD <i>Professor, Cell Biology SUNY Downstate</i> Biophysical Studies of Brain Extracellular Space.
11/14	Miranda Orr, PhD <i>Associate Professor, Neurology Washington University School of Medicine</i> Identifying, Profiling and Clearing Senescent Cells in the Brain
11/21	Angela Garcia-Gallardo, MD <i>Neurologist & Cognitive Neurology Fellow/Researcher St. James Hospital, Dublin & Trinity College, Dublin</i> Understanding the Blood-Brain Barrier: From Physiology to Pathology
12/5	Antonio Aubry, PhD <i>Instructor, Neuroscience Icahn School of Medicine at Mt. Sinai</i> TBA
12/12	Patrizia Casaccia, MD, PhD <i>Director, Neuroscience Initiative Advanced Science Research Center</i> Body/Brain communication: the role of metabolism in developmental myelination and in demyelinating disorders.
