

## Epigenetics Core User Group Meeting

### DATE & TIME

**Tuesday, June 10, 2025**

**10:00 am – 4 pm ET**

### LOCATION

In person: CUNY Advanced Science Research Center  
5th floor DataViz room

Virtual: [Zoom Meeting](#) ID: 873 7075 3388 |  
Passcode: 931454

Join us for a one-day event designed for ASRC Epigenetics Core Facility users interested in the latest solutions and research applications of our single-cell gene expression platforms. This event will feature highly informative sessions, including updates on new applications from 10x Genomics and Genewiz, as well as presentations from active users conducting cutting-edge research in the field.

Featured sessions include:

- New GEM-X and Flex workflow from **10x Genomics** to enable higher throughput, more cost-effective single cell/nuclei profiling.
- Best practice for single-cell **Sample Preparation** and a live **Data Analysis** demo.
- Announcement of a new ASRC Epigenetics Core partnership with **Genewiz**
- **Research presentations** from current users using single cell gene expression profiling.
- Epigenetics Core **Pilot Research Award** – Apply for a chance to win a **FREE** single-cell project!!

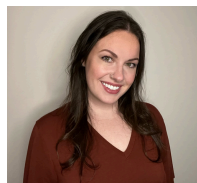

### SPEAKERS

Suma Jaini  
10X Genomics

Stephanie Hao  
10X Genomics

Brianna Hegarty  
10X Genomics

Host

Jia Liu  
Epigenetics Core Facility  
Director

Alex Paik  
Genewiz

Katie Duval  
Genewiz

And from current users...
